

Metro Shake™

The classic rustic style of wood shake in lightweight high-strength steel.

Metro Shake™ is a batten-less design that is revolutionizing the re-roofing industry. Each panel is forged with deep wood grain impressions creating an exceptionally strong, lightweight (1.5lbs/sq. ft.) and secure steel roof covering to suit any architectural style.

Metro's advanced coating technology and unique design eliminates the costly wood battens allowing for faster install times.

A Metro Shake™ roof gives you the charm of wood shake without the associated problems of splitting, warping or increased fire risk. Instead you'll enjoy excellent durability, long life and low maintenance even in the harshest climates. And our attractive color palette lets you choose just the right look that can transform your home – Metro Shake™.

Smart Roofs for Smart People™

Metro Shake™

Lightweight and built for long-life.

Metro Shake™ is finished with an attractive stone coating embedded in a UV resistant acrylic polymer for a lasting bond to the 26-gauge *Galvalume® steel covered with 100% acrylic over-glaze.

Purchase with Confidence

All Metro products provide heavy-duty warranty performance, from 120-mph winds to hail impact and fire resistance. Take a look at today's steel roofing and select from a wide range of earth-tone colors to suit your home. For years we've been a leader in the design and production of quality stone coated steel roofing, producing a roofing product that is of high quality and affordable.
